graphics, prints

digital prints

We produce large size prints for indoor using up to 2400 dpi in our rooms.

For that we need files with high resolutions. We work with all usable picture file formats.

For uploading your files you can use our ftp-server.

logos

For your logo we need a file with vector informations like EPS, PDF or Illustrator.

self adhesive film letters

More than 2000 fonts with all commercial coloured films available. Our plotter cuts all sizes.

clamped printed banners

Printed banners with rubber stripes all round, clamped into aluminium frames are currently in great demand. It can also be backlighted.
